First touch soccer session warm-up

Time: 15 minutes

Set up:

7 x 7 yard
1 soccer ball per 4 players
1 defender
3 attackers
1 goal

Instructions:

The players must keep the ball away from the defender and see how many passes in a row they can get before the defender intercepts or steals the ball from the attackers.

If the defender steals the ball place a goal on the edge of the area for them to score into.

The play will restart with the attackers when the defender has taken their shot on goal whether they scored or missed.

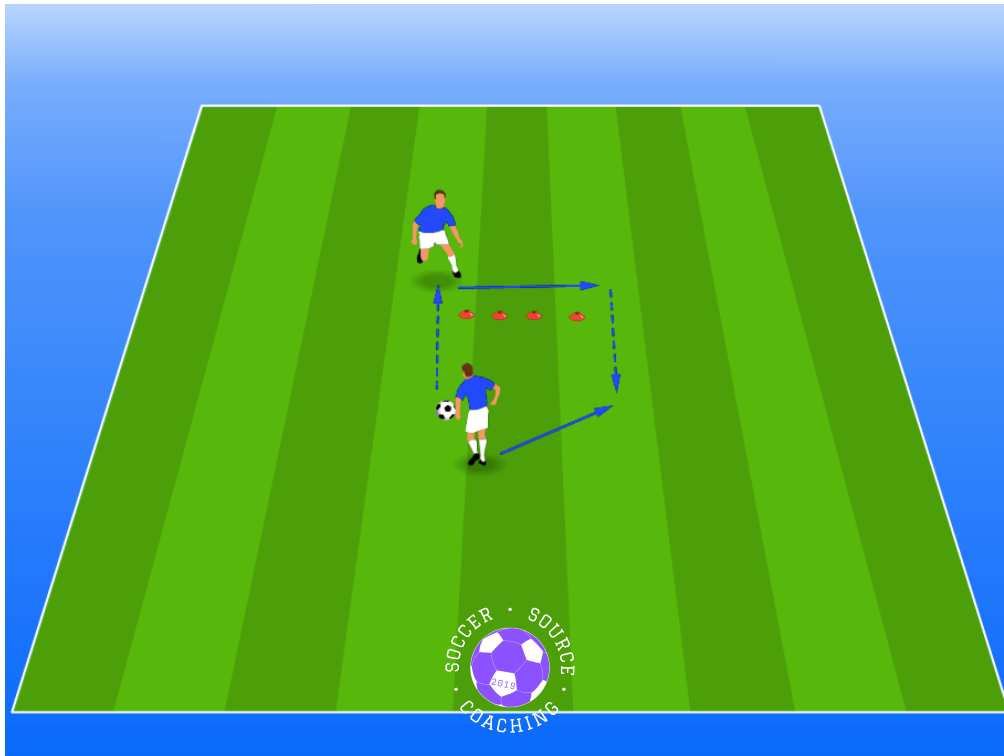

The play will continue if the attacking team manages to win the ball back.

Coaching points:

The first touch should be away from the pressure and towards the space
Practice using the inside and outside of your back foot when
Scan the area before you receive a pass so you know where to take your first touch

Questions that can lead to coaching points:

Where should your first touch take you?
What parts of the foot should we use when receiving the ball?
What should we be doing before we receive the ball?

First touch soccer session technical activity

Time: 15 minutes

Set up:

3 cones per pair
1 Soccer ball per pair

Instructions:

set up your cones in a straight line roughly a yard in length and place your 2 soccer players on either side of the coned line.

The players must pass the ball to each other alternating from left to right however it must stay on the outside of the cones.

When a player receives the ball they must run parallel to the coned line and pass to their teammate on the other side.

Players can start by using the inside of their back foot to take the touch and pass.

Challenge players to control the pass and pass the soccer in as few touches as possible.

Coaching points:

You should be side on when receiving the ball
Your chest should be facing the direction you want to take the touch
Stay light on your feet

Questions that can lead to coaching points:

How should you be standing when you're waiting to receive the ball?
Which way should I be facing?
What can I do to help easily adjust to a pass?

First touch soccer progression

Time: 15 minutes

Set up:

1 Soccer ball per pair
 6 cones to make 3 goals
 1 defender 1 attacker

Instructions:

Set up the goals at a slight angle 5 yards apart with the defender starting in the middle passing to the attacker. There will also be a goal behind the attacker that the defender can score if they win the ball back

Once the defender has passed the ball they will apply pressure to the attacker immediately the attacker must try and beat the defender using their first touch and dribble through the goals either to their left or right.

after 5 turns swap the defender and the attacker.

Coaching points:

Disguise your first touch with your body position and shape (look like you're going to go one way then go the other)
 Try and beat the defender with your first touch and accelerate away
 Use both feet and different parts of your foot for your first touch

Questions that can lead to coaching points:

How can we make it harder for the defender to predict where our first touch is going to take us?
 After our first into the space, what do we need to do as well to get away from the defender?
 What else can we do to be unpredictable for the defender?

First, touch soccer conditioned game

Time: 20 minutes

Set up:

15 x 20-yard area

1 soccer ball

2 teams

Instructions:

This will work as a regular scrimmage however if a player can beat a player with their first touch and retain possession/ take a shot on goal it will be worth 1 point.

If a team manages to score a goal it will be worth 2 points.

Coaching points:

Reinforce previous coaching points with individuals

Try to intervene as little as possible and only step in if you see a reoccurring problem.

Regular scrimmage: 15 minutes
