

# 3v3 halfway line shooting game

## How it works

Divide your players into 2 equal teams and set up your area with a clear halfway point (you may have to adjust the size of the playing area so it is appropriate for the age group you are coaching).

This will be like a regular game of soccer however if a player scores a goal from behind the halfway line then that goal will count as a double.

## Coaching points

- Take your shot early if you get the opportunity
- Keep your head to assess when/where/how to take the shot
- Scan the area so you are able to find positions that you could from

## Questions

- When should I shoot?
- How do I know when to shoot?
- If I do not have the ball what should I be looking to do?

## Purpose

The purpose of this drill is to improve long distance shooting

## Set up

- 2 goals
- 2 teams of 3 with 1 GK per team
- 15-yard x 10-yard area
